

Web Facade

```
graph TD; WF[Web Facade] --> C[Customer]; WF --> P[Product]; WF --> Cart[Cart]; WF --> B[Billing]; C --> MySQL[(MySQL)]; P --> Mongo[(Mongo)]; Cart --> Q1[(??)]; B --> Q2[(??)];
```

The diagram illustrates a Web Facade architecture. At the top is a green rounded rectangle labeled "Web Facade". Four arrows point down from this rectangle to four yellow rounded rectangles labeled "Customer", "Product", "Cart", and "Billing". Below each of these yellow rectangles is a red cylinder representing a database. Arrows point from each yellow rectangle to its respective database: "Customer" to "MySQL", "Product" to "Mongo", "Cart" to a cylinder labeled "??", and "Billing" to another cylinder labeled "??".
